SUBJECT INDEX TO VOLUME 30

Adiponitrile, 13-week inhalation toxicity study and fertility assessment in rats exposed to atmospheres containing, 199

Bromodichloromethane in rats after single and multiple oral doses, metabolism and distribution of, 15

Carbon tetrachloride, effect on hamster tracheal epithelial cells, 273
Coumestrol, reproductive abnormalities in female mice exposed neonatally to various doses of, 105
Cytochrome P-450IA1, extracts of airborne particulates in the Copenhagen area induce the expression of, 225

Di(2-ethylhexyl)phthalate, quantitative analysis of hepatocellular lesions induced by, 85
Dose-response curves, u-shaped: their occurrence and implications for risk assessment, 71

Kashin-Beck Disease: A cross-sectional study in seven villages in the People's Republic of China, 239

Mercuric chloride in mice after oral and parenteral administration, disposition and retention of, 167
Metals to chick embryos, teratogenicity of, 23
Methyl Isocyanate in mice and rats, dissociation between maternal and fetal toxicity of, 1

Naphthalene and naphthalene metabolites on the in vitro humoral response, effects of, 53

Oral meso-2,3-dimercaptosuccinic acid in pregnant Sprague-Dawley rats; Teratogenicity and alterations in mineral metabolism. I. Teratological evaluation, 181
Oral meso-2,3-dimercaptosuccinic acid in pregnant Sprague-Dawley rats; Teratogenicity and alterations in mineral metabolism. II. Effect on mineral metabolism, 191
Ozone-induced airway hyperresponsiveness in unanesthetized guinea pigs, dose-response relationships of, 123
Ozone, morphologic injury and lipid peroxidation in monolayer cultures of rabbit tracheal epithelium exposed in vitro to, 287

Particle-containing alveolar cells in vitro, particle distribution in lung and lymph node tissues of rats and dogs and the, 141
Pesticide mixtures, Behavioral and neurochemical changes associated with chronic exposure to low-level concentration of, 209
Pictoram, chronic toxicity and oncogenicity of, 91
Polychlorinated dibenzodioxin levels with hepatic mixed-function oxidase induction in great blue herons, 33
Potable water, comprehensive health effects testing program for Denver's demonstration project, 305

2,3,7,8-tetrachlorodibenzodioxin, toxicity to humans, 261
